### DETAILED ACTION

1. Claims 1-20 are in the application.

#### *Drawings*

2. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, and 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Hallenstvedt et al.

Hallenstvedt et al discloses a transmission for a marine propulsion system including a first shaft 1 supported for rotation about a first axis; a second shaft 8 supported for rotation about a second axis; and a clutch 11 which is alternately movable into first,

second and third positions; the transmission includes first, second and third gears 3, 4, 5.

The clutch is a cone clutch and includes a connection to the second shaft through a set of helical splines 16.

***Allowable Subject Matter***

5. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 11-20 are allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hurst is cited as showing a transmission including a cone friction clutch.
